

Condition

medical problem for a long time

Our daughter was born with a brain **condition**.

I must be careful because I have a heart **condition**.

Diagnose

to discover someone's
medical problem

The doctor **diagnosed** me with the flu.

No one can **diagnose** my pain.

Enough

a good amount, not too little

I don't have **enough** time for laundry today. I will do it tomorrow.

If we have 8 people, we have **enough** people for soccer.

Hopeful

feeling hope for the future

I am **hopeful** about the weather tomorrow.

I don't feel very **hopeful** about my job interview.

Normal

same as usual, common

Today was not a special day.
It was **normal**.

If you feel dizzy after a blood test, don't worry.
It's **normal**.

Someday

the future, don't know when

Someday, I want to buy a house.

We probably can't visit our family this year. We will **someday**.

Symptom

a problem from a disease

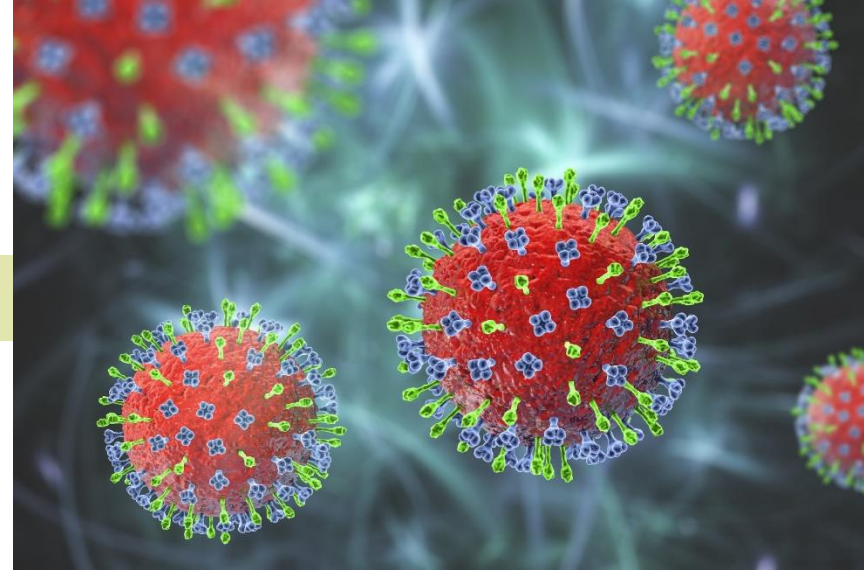

One **symptom** of arthritis is knee pain.

Use this medicine while you have **symptoms**.

Virus

a cause of disease

Colds and flus are caused by **viruses**, not bacteria.

Antibiotic medicine is not helpful for a **virus**.
You should just rest.
