

Recycling

Adapted from : <https://www.youtube.com/watch?v=jT7R2ts6KXA>

A lot of stuff we throw away is not really trash.

A lot of it is stuff we can recycle.

We can recycle old bottles, cans, newspapers, and many other things.

We don't need to separate all the things we recycle.

You can throw everything that can be recycled into a recycling bin. The bin is usually big and blue.
It's easy!

Just remember that the blue bin is only for recycling.

Keep putting things you can't recycle in the trash.

You can recycle glass bottles and jars, cans, and most plastic containers.

Look for the recycling number on the bottom of a plastic container. You can recycle the numbers 1 - 7.

You can also recycle newspapers, magazines, office papers, mail, and cardboard.

Remember to put your recycling bin out in the morning on your recycling day!
